Who We Are

Research & Planning (R&P) functions as an exclusively statistical entity within the Wyoming Department of Workforce Services. R&P collects, analyzes, and publishes timely and accurate labor market information (LMI) meeting established statistical standards. We work to make the labor market more efficient by providing the public and the public's representatives with the information needed for evidence-

based, informed decision making.

Wyoming Unemployment Insurance Claims Report, December 2024

Initial, Continued Claims Show Little Change for 3 Years

by: Laura Yetter, Senior Economist

Both initial and continued Unemployment Insurance (UI) claims (see Definitions, page 9) in Wyoming increased from November to December, as well as over the year. December 2024 marked the fourth consecutive month of over-the-year increases in initial claims, and the eighth consecutive month for increases in continued claims. Overall, initial and continued claims have remained steady and shown little change since 2022 (see Figure 1 below and Figure 2, page 4).

Initial Claims

There were 2,091 initial claims in December 2024, up 22 (1.1%) from December 2023. Initial claims increased by 35 (1.7%) over the month.

UI Claims Online

Weekly, monthly, and annual Unemployment Insurance claims for Wyoming available online at https://doe.state.wy.us/LMI/UI.htm.

The industries with the largest numbers of initial claims included construction (857); professional & business services (267); trade, transportation, & utilities (214); and leisure & hospitality (179). Natural resources & mining increased the most with 42 more claims over the year (38.2%), followed by government with 34 more claims (29.8%; see Table 1, page 5, and Figure 3, page 6).

Laramie County had the most initial claims with 339, followed by Natrona (286), Sweetwater (187), and Campbell (126)

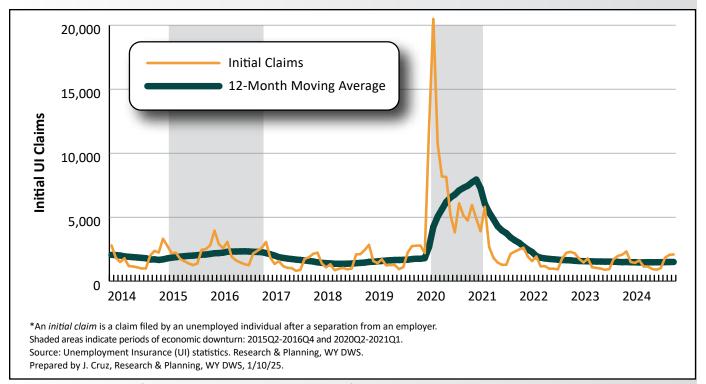

Figure 1: Total Number of Initial Unemployment Insurance Claims for Wyoming by Year and Month, January 2014 to December 2024

counties (see Figure 4, page 6, and Table 3, page 9). In addition, there were 337 out-of-state claimants, down 22.2% over the month but up 14.2% over the year.

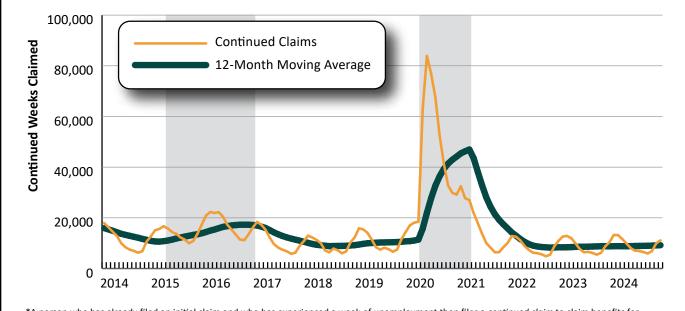

Continued Claims

The total number of continued weeks claimed followed the normal seasonal pattern and increased over the month by 1,165, or 11.7%. The total number of continued weeks claimed increased from 10,374 in December 2023 to 11,096 in December 2024 (722, or 7.0%; see Table 2, page 7). The total number of unique claimants also increased over the year, from 3,735 to 4,033 (298, or 8.0%). In addition, the total number of unique claimants increased by 14.2% over the month.

The industries with the most continued weeks claimed included construction

(2,699), leisure & hospitality (2,047), professional & business services (1,532), and trade, transportation, & utilities (1,376). Construction had the greatest over-the-year decrease in continued claims (-258, or -8.7%); however, most other industries showed over-the-year increases (see Figure 5, page 8). In particular, continued claims in professional & business services increased by 257 (20.2%), followed by leisure & hospitality (214, or 11.7%); trade, transportation, & utilities (164, or 13.5%), and government (140, or 17.2%).

As with initial claims, Laramie County had the greatest number of continued weeks claimed with 1,450, followed by Natrona (1,408), Sweetwater (836), and Fremont (758) counties (see Figure 6, page 8, and Table 4, page 9). There were 2,333 out-of-state continued claims, up 3.3% over the month but down 6.6% over the year.

^{*}A person who has already filed an initial claim and who has experienced a week of unemployment then files a *continued claim* to claim benefits for that week of unemployment.
