Who We Are

Research & Planning (R&P) functions as an exclusively statistical entity within the Wyoming Department of Workforce Services. R&P collects, analyzes, and publishes timely and accurate labor market information (LMI) meeting established statistical standards. We work to make the labor market more efficient by providing the public and the public's representatives with the information needed for evidence-based, informed decision making.

Wyoming Unemployment Insurance Claims Report, October 2021

UI Claims Continue to Decline from Pandemic Highs

by: *Michael Moore, Editor*

The number of Unemployment Insurance (UI) claims in Wyoming continued to decline from prior-year levels in October, as initial claims decreased by 64.9% and continued claims decreased by 80.9% (see Definitions, page 9).

The September 2021 Wyoming UI claims report included an analysis comparing current claims levels to pre-pandemic levels; that report can be found online at https://doe.state.wy.us/LMI/UI/UI_Claims_0921.pdf.

Initial Claims

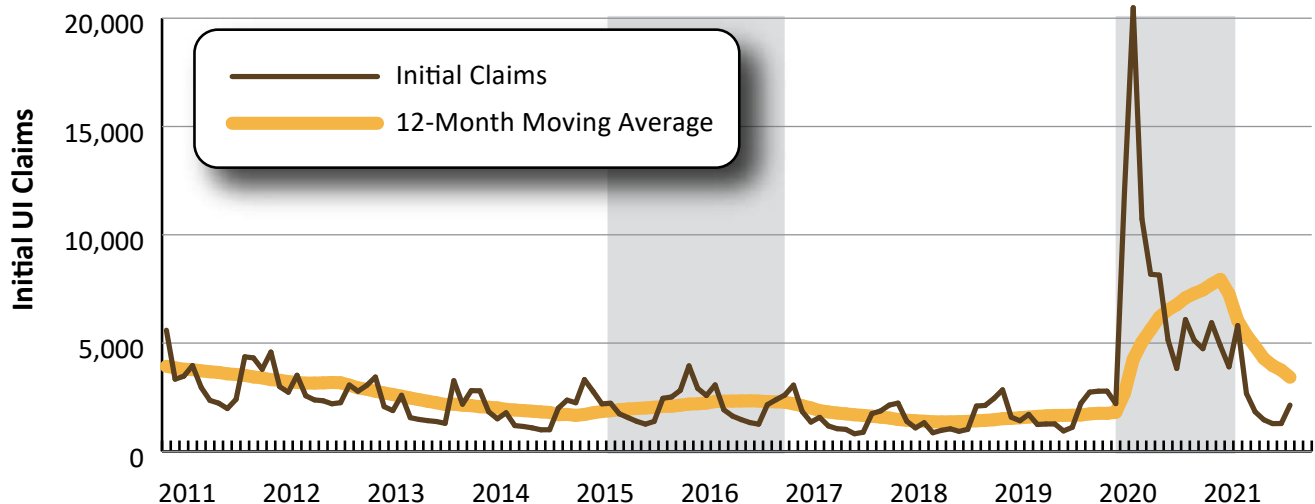

October 2021 marked the eighth

UI Claims Online

Weekly, monthly, and annual Unemployment Insurance claims for Wyoming are available online at <https://doe.state.wy.us/LMI/UI.htm>.

consecutive month of over-the-year decreases in initial UI claims in Wyoming (see Figure 1). There were 2,136 initial claims in October 2021, down from 6,084 in October 2020 (-3,948 or -64.9%; see Table 1, page 5).

Over the year, all industries and counties showed decreases in initial claims (see Figures 3 and 4, page 6).

*An *initial claim* is a claim filed by an unemployed individual after a separation from an employer.

Shaded areas indicate periods of economic downturn: 2015Q2-2016Q4 and 2020Q2-2021Q1.

Figure 1: Total Number of Initial Unemployment Insurance Claims for Wyoming by Year and Month, January 2011 to October 2021

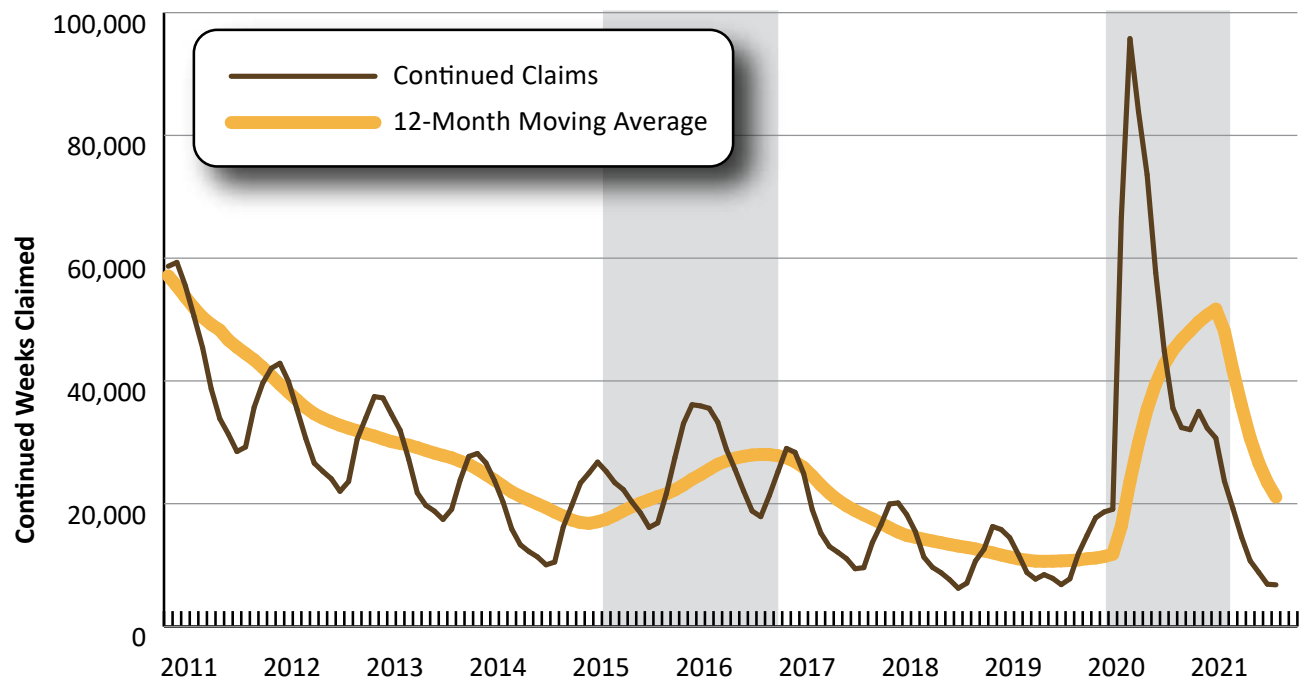

Initial claims followed their normal pattern and increased from September to October as many summer jobs ended and more individuals filed claims for UI benefits (see Table 1). The total number of initial claims increased from 1,286 in September to 2,136 in October (850, or 66.1%). Over the last five years, the number of initial claims increased by an average of 85.9% from September to October.

Over the month, substantial increases were seen in most industries, such as leisure & hospitality (378, or 248.7%), construction (152, or 55.7%), and unclassified (96, or 45.1%). Small decreases in initial claims were seen in retail trade, wholesale trade, and local government (see Table 1).

Continued Claims

Continued claims declined from prior-year levels for the seventh consecutive month in October (see Figure 2). The number of continued weeks claimed decreased from 35,565 in October 2020 to 6,782 in October 2021 (-28,783, or -80.9%; see Table 2, page 7). The number of unique claimants decreased from 11,681 to 2,552 (-9,129, or -78.2%).

All industries and counties showed decreases in continued claims over the year (see Figures 5 and 6, page 8). Continued claims decreased in most industries over the month, but substantial increases were seen in leisure & hospitality (312, or 59.3%), construction (55, or 5.6%), and federal government (37, or 54.4%; see Table 2).

*A person who has already filed an initial claim and who has experienced a week of unemployment then files a *continued claim* to claim benefits for that week of unemployment.

Shaded areas indicate periods of economic downturn: 2015Q2-2016Q4 and 2020Q2-2021Q1.
